

Installation Instructions & Use Recommendations

FMS Accessories – Water Bottle Holder / Helmet Lock

These instructions must be read carefully and thoroughly **before** beginning work. FMS Solutions, LLC accepts no liability for damage caused by failure to observe the installation instructions or use recommendations.

Installation of this accessory does not change the factory specified load limits for the motorcycle.

The water bottle holder mounts to the LH front engine protection bar on 2015+ model R 1200/1250 RT-P models utilizing the three M5 crimped nuts in the protection bar.

M5 x 12mm washer head Torx bolts are provided to secure the mount to the bar.

If this mount is combined with a radar antenna mount, use the **M5 x 14mm** washer head Torx bolts also provided in the hardware package to accommodate the added material thickness.

Note: Helmet locks are individually keyed – each key is unique to the lock, so don't mix them up with locks from other units. Each lock comes with two (2) keys.

The helmet lock operates by inserting the key and rotating the lock to extend the chrome plated loop to secure your helmet strap.

Periodic lubrication of the helmet lock with WD40 or similar light spray lubricant should keep the lock operating smoothly.

The water bottle holder bracket is adjustable to accommodate many water bottle shapes. Looking down from above, turn the red knob counter-clockwise to tighten, turn it clockwise to loosen / adjust. The red knob is designed to not fall out if it comes loose.

Note: Do not ride the motorcycle with the red knob unscrewed / loose.

Feedback: Thank you for your purchase and we welcome your feedback as we too want to make every accessory exceed your expectations. Report any comments, suggestions, problems or concerns to FMS Solutions, LLC at info@fmsaccessories.com.

FMS Solutions, LLC Limited Warranty

FMS Solutions, LLC warrants to the first retail purchaser of new FMS Accessory products, to be free from defects in materials or workmanship, for a period of three (3) years from the original date of purchase as noted on the FMS Solutions, LLC invoice or original dealer invoice, except for paint and powder-coated finishes, which are warranted for the first 12 months only. LED lights from Fenix, Inc., Code 3, Inc. and Littlite are covered for 5 years by their manufacturer's respective warranties – processed through FMS Solutions, LLC.

This warranty extends only to the FMS accessory and does not include: damage caused by accidents or abuse; incorrect installation; labor to diagnose, remove, repair or replace; any consequential damage or loss of use. Any FMS Accessory suspected of being defective should be returned to FMS Solutions, LLC along with a copy of proof of purchase and warranty request form available on the FMS website. FMS Solutions, LLC will determine if the FMS accessory has a warrantable defect, and if so, will repair or replace the item and return it to the sender without charge. The decision to repair or replace said item is solely the prerogative of FMS Solutions, LLC.

Note: Police motors can operate in a very rough environment since police motors are a "tool". They can be dropped, knocked-over, etc. without concern as the officer has a job to do and determines what is necessary at any given moment. Warranty is for defects in materials or workmanship. Therefore, the ability of an item to become broken or damaged does not mean it is warranty ... it just means it is broken or damaged and in need of repair or replacement. No manufacturer warrants their products to be indestructible. Any questions should be directed to info@fmsaccessories.com.
